ABOUT JCCOIMBRA S.A

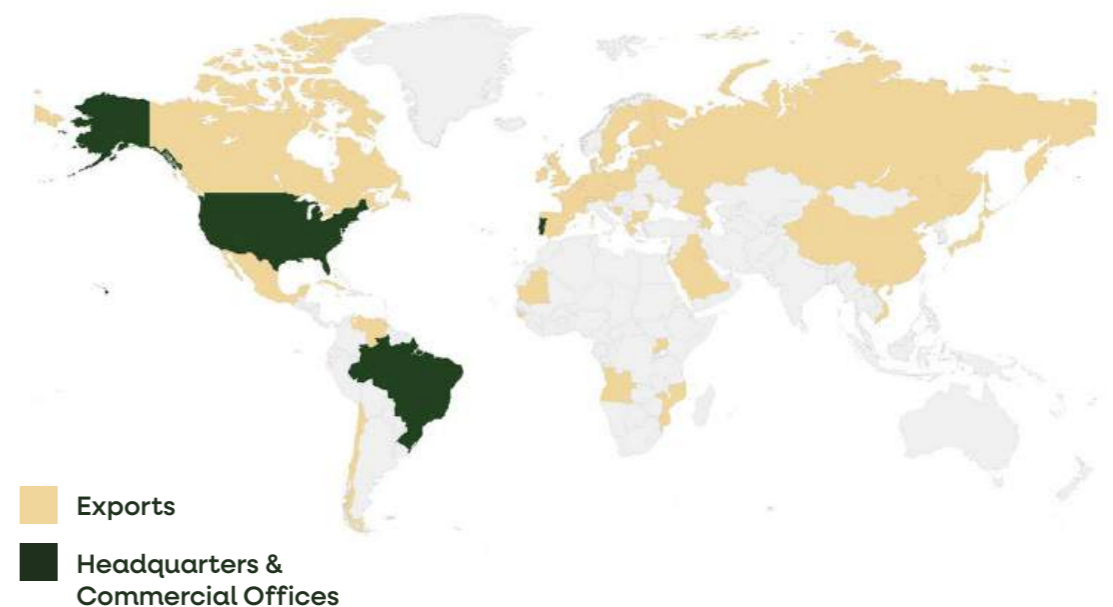

Founded in 1946, JCCoimbra is a Portuguese company with over 75 years of existence. We produce and market several types of vegetable oils, but mainly Olive Oil.

We currently own 50 trademarks and produce in a wide variety of formats - in Glass, Pet and Tin - and capacities.

Our client's range from Retail Chains, Wholesalers, Importers & Distributors, to the HORECA channel and Food Service.

OUR PRESENCE IN THE WORLD

CERTIFICATES & AWARDS OF SOME OF OUR PRODUCTS

OUR HISTORY

JCCoimbra dates back to 1946, the year in which Mr. José Carvalho Coimbra started his olive oil distribution business. Due to the very positive feedback from his customers, combined with the need to meet the huge increase in orders and the demand for quality control, in the early 80's he started to diversify his investments in other key areas, such as: extraction, refining and new packaging units.

As part of its diversification and expansion strategy, the Group has established partnerships with several olive oil producers in leading regions across Portugal. These collaborations ensure a strong and direct connection to production, enabling a rigorous and competitive selection of products.

Recently our focus has been on strengthening our technological infrastructure, enhancing production processes, and refining quality control systems. This commitment is driven by a clear objective: to deliver quality, competitive products that not only meet but exceed the expectations of today's consumers.
